

ATTENTION FAMILIES OF CHILDREN WITH NEUROFIBROMATOSIS TYPE 1 AGES 7 to 16

We are currently looking for children and adolescents with Neurofibromatosis Type 1 to participate in a research study. We are trying to learn more about the best way of teaching people to read.

WHAT WILL BE INVOLVED:

- ❖ Comprehensive evaluation of reading-related skills for about 3 hours at Kennedy Krieger Institute
- ❖ Possible Magnetic Resonance Imaging (MRI) scans of the brain
- ❖ If qualified, a minimum of 160 hours of tutoring (two separate tutoring sessions for 80 hours at a Lindamood-Bell Clinic)
- ❖ Parent questionnaires

WHAT YOU WILL RECEIVE FOR PARTICIPATING:

No direct medical benefits and risks are minimal
Tutoring (a minimum of 160 hours for those who qualify)
Free IQ and school testing with summary
Some children will receive a free MRI
Check for \$50
